Summit Consultancy Group, LLC provides quality, personalized financial guidance to individuals and businesses in the Las Vegas area. The firm's expertise ranges from basic tax-management and accounting services to more in-depth services, such as preparing audits and financial statements and financial planning. As one of the leading accounting firms in Las Vegas, the expertise, experience and the team mentality of Summit Consultancy Group ensure that every client receives the close analysis and attention they deserve. Dedication to high standards, hiring seasoned tax professionals and maintaining a strong work ethic are why Summit Consultancy Group clients return year after year and feel confident to refer their friends, family and coworkers.

The mission of Summit Consultancy Group is to help clients maintain financial viability in the present while being proactive in achieving future goals. This requires open communication, research and sound analysis for understanding clients' needs. Summit Consultancy Group is dedicated to meeting these goals with its high standards of excellence and professionalism.

A staple of Las Vegas for years, Summit Consultancy Group takes pride that dedication to hard work has earned them the respect of the local business and financial communities because all clients that choose Summit Consultancy Group receive competent and timely advice.

Summit Consultancy Group provides services to individuals and businesses across many industries and strives to meet each client's specific needs in future planning and achieving goals in an ever-changing financial and regulatory environment. Following are brief descriptions of services offered:

- Tax management to maximize cash flow and keep financial goals on track
- Accounting support on financial issues for start-ups and seasoned businesses
- Assurance and advisory services on financial records and procedures and strategies to help clients face the challenges of business planning and execution
- Audits, reviews and compilation for the highest level of assurance to third parties and internal records
- Estate and trust planning and tax preparation to ensure financial security for loved ones or a smooth succession of ownership for businesses
- Employee benefits, pensions and profit-sharing plans to ensure employee well-being and the company's financial goals
- IRS representation during an audit
- Bookkeeping essentials for a successful business
- Entity selection and restructuring for that entity's impact on taxes and liabilities
- Software accounting assistance for installation, setup and employee training
- Payroll services to reduce administration time spent
- Financial and retirement planning for reaching goals and maintaining comfortable independence
- Cash-flow improvement and budgeting analysis
- Financial projections and forecasts to help manage a business plan and spending
- Debt and finance advising to sort out the options available for management and lowering payments or reducing the total interest amount
- International taxation for corporations with overseas operations or businesses with U.S. residents working abroad or foreign citizens as employees in the states

Whatever the financial or accounting service clients want or need, Summit Consultancy Group works to make it worthwhile and beneficial while building business relationships that endure.
