IGT: CHANGING THE GAME

6355 South Buffalo Drive
Las Vegas, NV 89113
(702) 669-7777
www.igt.com

Historically, International Game Technology (IGT) has always been at the forefront of the gaming industry, providing unrivaled gaming experiences for our casino partner players and developing industry altering innovations. Although IGT's origins as a private company date back to the early 1950s, the Company's decision to go public in 1981 signaled its intent to do business on a global scale. IGT's "foot in the door" had arrived a few years earlier with the success of its revolutionary gaming product, the video

poker machine. Since 1986, IGT has been a global leader in casino gaming entertainment and continues to transform the industry by translating casino player experiences to social, mobile and interactive environments. IGT's unequalled legacy of excellence continues this year with games that will dazzle players with bonus features, new math models and beautiful display formats.

Our ties to the Las Vegas community run deep, as IGT is a notable supporter of many reputable charitable

and artistic organizations in this grand city. Our headquarters, which employs nearly 700 people signals our dedication to the area. Our close adjacency to the famous Las Vegas Strip provides us with a valuable proximity to many of our casino partners, allowing for a dynamic and collaborative relationship.

IGT will paint the town blue, with the launch of all-new and exciting game themes sure to thrill players. Recognizable licensed brands take center stage on casino floors worldwide, providing dynamic and engaging content. Silver screen smash hits including Footloose™ and Ghostbusters™ will roar into casinos with recognizable movie clips and catchy tunes sure to set everyone's feet to dancing.

The slot titles we have created have become cultural icons, which are as much a part of Las Vegas as the street names that speak to the history in this fabulous city. As the leader in wide-area progressive, millionaire-making jackpots, IGT has created more than 1,500 millionaires since the debut of their Mega-Jackpots® line of slot machines in 1986. A picture is worth a thousand words, or in IGT's case, worth 6 billion dollars. A recent Infograph released by IGT, depicts a visual history of MegaJackpots® millionaires, featuring a slew of interesting stats and figures, including the 'Top 5 Winningest States' and 'Luckiest Months'. More information on IGT's Mega-Jackpots® can be found by visiting www.megajackpots.com.

IGT's imaginative line-up of player engaging content continues to grow as The Company extends their reach into interactive and social game play. The IGT-owned DoubleDown Casino consistently ranks in the top 25 apps on iTunes and Google Play, and is consistently in the list of top rated apps on Facebook.

Providing the most innovative gaming experiences is part of the IGT credo, and our global reach is rapidly developing. IGT is one of the largest suppliers of systems solutions and the market growth and expanded supply of localized content speaks to this progression. IGT recognizes that every region in the world has different player characteristics, and is poised to provide thrilling games, and unmatched flexibility to casino operators create unique and exciting experiences for players for years to come.

IGT is at the heart of Las Vegas. This year we look forward to delivering more industry-firsts with products that WOW and excite! ■
