More than 30 years ago, Donald R. Horton had a vision—a vision of livable, quality-crafted, stylish and affordable new homes; a vision where family traditions could be passed on to new generations in comfort and style.

This vision started one home at a time and grew D.R. Horton from a local homebuilder to regional homebuilder to ultimately the largest homebuilder in the United States. Through it all, D.R. Horton's vision and philosophy never have wavered. He feels the same now as he did then, saying, "Real estate is not about location, location; it's about people, people, people."

D.R. Horton, Inc. is a publicly traded company listed on the New York Stock Exchange under DHI. Since entering the market in 1978, D.R. Horton has closed

more than 350,000 homes nationwide with more than 19,000 closings just last calendar year. In 1994, D.R. Horton entered the Las Vegas market and since has closed more than 15,000 homes in the Las Vegas metropolitan area. The Las Vegas division currently offers homes ranging in size from 1,700 to 5,100 square feet in neighborhoods throughout the valley.

D.R. Horton's commitment to quality construction, stylish designs, value pricing and customer service has propelled the company to earn the title of America's No. 1 Homebuilder for 11 consecutive years.
