www.tun.touro.edu

Touro University Nevada was established in 2004 to help address critical personnel needs in health sciences and education and as a resource for community service in the state of Nevada. The university is home to more than 1,300 students in a wide range of degree programs. Many of these programs are the first of their kind in the state of Nevada.

- Doctor of Osteopathic Medicine
- Doctor of Physical Therapy
- Doctor of Nursing Practice
- Master of Physician Assistant Studies
- Master of Occupational Therapy
- Master of Medical Health Sciences
- Master of Education
- Master of Camp Administration
- Bachelor of Science in Nursing

The Henderson, Nevada campus is part of Touro College and University System in New York, an international system of Jewish-sponsored, non-profit institutions of higher and professional education. Touro University Nevada is fully accredited by the Western Association of Schools and Colleges.

Community Outreach and Service

Serving the community is a central part of TUN's mission.

Center for Autism and Developmental Disabilities

Developed to address a growing community need, Touro University Nevada's Center is the only facility of

its kind in Nevada. The Center offers multi-disciplinary, comprehensive diagnostics services, therapy and supportive resources for families dealing with Autism and other developmental disorders.

Touro Health Center

The university also offers a full-service, multi-specialty physician's office, staffed by practicing faculty members. The Health Center is open to the community and accepts most major insurance. Specialties include rheumatology, primary care, geriatrics, and osteopathic manipulative medicine.

Stallman Touro Clinic at The Shade Tree

In 2008 the university opened the clinic at Shade Tree, a shelter for abused and homeless women and children. Faculty and students from Touro staff the clinic on a weekly basis and provide on-going medical care to the residents of the shelter.

Caring Without Walls

This community outreach program provides free health screenings and education at community events. The program targets those with limited access to healthcare services in Southern Nevada and is delivered by students under faculty supervision.

Physical Therapy Clinic

Led by physical therapy students under faculty supervision, this free clinic is offered weekly to local community members who have exceeded their allotted insurance coverage or who do not have insurance. ■
